

New York State Vaping-Related Illness Investigation

Summary of case data reported to NYS Department Health through November 4, 2019

Reports of Vaping-Related Illness

Investigation Status

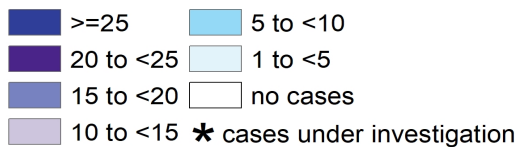

Total reported cases=165

Confirmed and Probable Cases are classified based upon the Centers for Disease Control and Prevention case definition. The definitions are meant for surveillance and not clinical diagnosis. Due to the ongoing and evolving nature of the outbreak, an individual case's classification status may change.

Out of State Cases reside out of state but were treated at hospitals in NYS.
